Circle the type of clinical question (PICO) you have notated:

- Therapy/Treatment
- Therapy
- Diagnosis
- Etiology/Harm/Causation
- Prognosis

List terms and synonyms from your PICO that you can use in your search, including any MeSH you have identified:

_________________________     __________________________
_________________________
_________________________
_________________________     __________________________

List any inclusion and exclusion criteria (age, gender, publication dates, language etc.)

_________________________     __________________________
_________________________
_________________________
_________________________     __________________________

Use the back of this sheet to notate which databases you search in and any adaptation to your terms or PICO you make to find evidence that satisfies your query.
